

Monte a sua rede: crie revendas

Cada revenda ganha um painel próprio, com as vagas que você der.

1 No menu, toque em **Agents**.

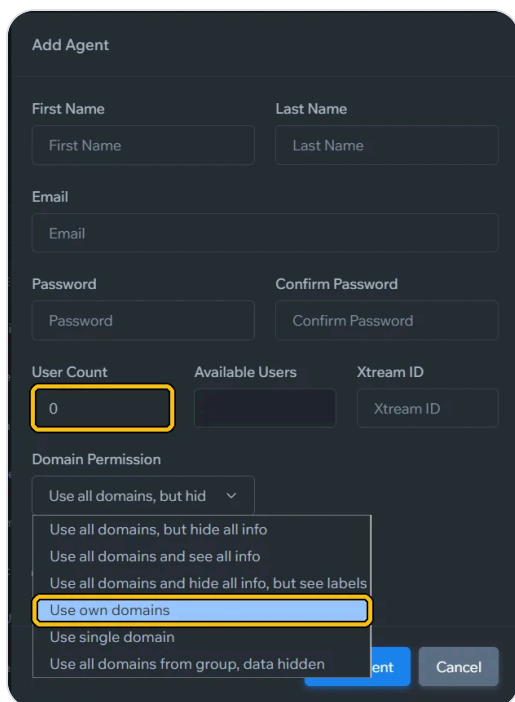

2 Toque em **Add Agent**.

3 Preencha o nome, o **Email** e a **Password** da revenda.

4

Em **User Count**, ponha quantos clientes ela pode ativar. Em **Domain Permission**, escolha **Use own domains**: cada revenda usa as DNS dela.

The screenshot shows the 'Add Agent' form with the following fields and values:

- First Name**: First Name
- Last Name**: Last Name
- Email**: Email
- Password**: Password
- Confirm Password**: Confirm Password
- User Count**: 0 (highlighted with a yellow box)
- Available Users**: (empty field)
- Xtream ID**: Xtream ID
- Domain Permission**: Use own domains (selected and highlighted with a yellow box)

The 'Domain Permission' dropdown menu is open, showing the following options:

- Use all domains, but hid
- Use all domains, but hide all info
- Use all domains and see all info
- Use all domains and hide all info, but see labels
- Use own domains** (highlighted with a yellow box)
- Use single domain
- Use all domains from group, data hidden

At the bottom right, there are 'Add Agent' and 'Cancel' buttons.

Quer que ela também crie revendas? Ligue **Admin**. Depois toque em **Add Agent**.

Mande para a nova revenda o link desta página: ela aprende sozinha a [criar a chave](#), [cadastrar as DNS](#) e [criar clientes](#).
